

Medicaid Waivers

April 11, 2025 | 1:00—3:00 PM EST

Presenter: Alisha Clark, Department for Medicaid Services (DMS)

Medicaid waiver programs provide services that promote community living for people with disabilities. This includes support and assistance with daily activities such as basic self-care, navigating the community, and managing their home, finances, or medical care. The Department for Medicaid Services (DMS) will provide an overview of Kentucky's 1915 (c) Home- and Community-Based Services (HCBS) Medicaid waivers and the services they provide for people with disabilities. The process from applying for waivers, to service delivery options, and Medicaid waiver resources available to guide the process will also be discussed.
