Webinars (Pediatric Audiology Webinar Series)

www.aucd.org/webinars

Workshop Objectives

Participate in a team base learning format around the needs of families with children who are deaf/hard of hearing with ASD

Apply key concepts in pediatric audiology using a family-centered approach to case examples of early detection and intervention

Establish connections between and among LEND audiology students and faculty around early detection and pediatric audiology

Team-Based Learning

Step 1: Students study materials in preparation for the TBL session

Step 2: Students complete multiple-choice questions (RAT) that focus on the concepts they need to master in order to be able to solve the issues

Step 3: Team completes RAT

Step 4: Clarification of concepts from instructor

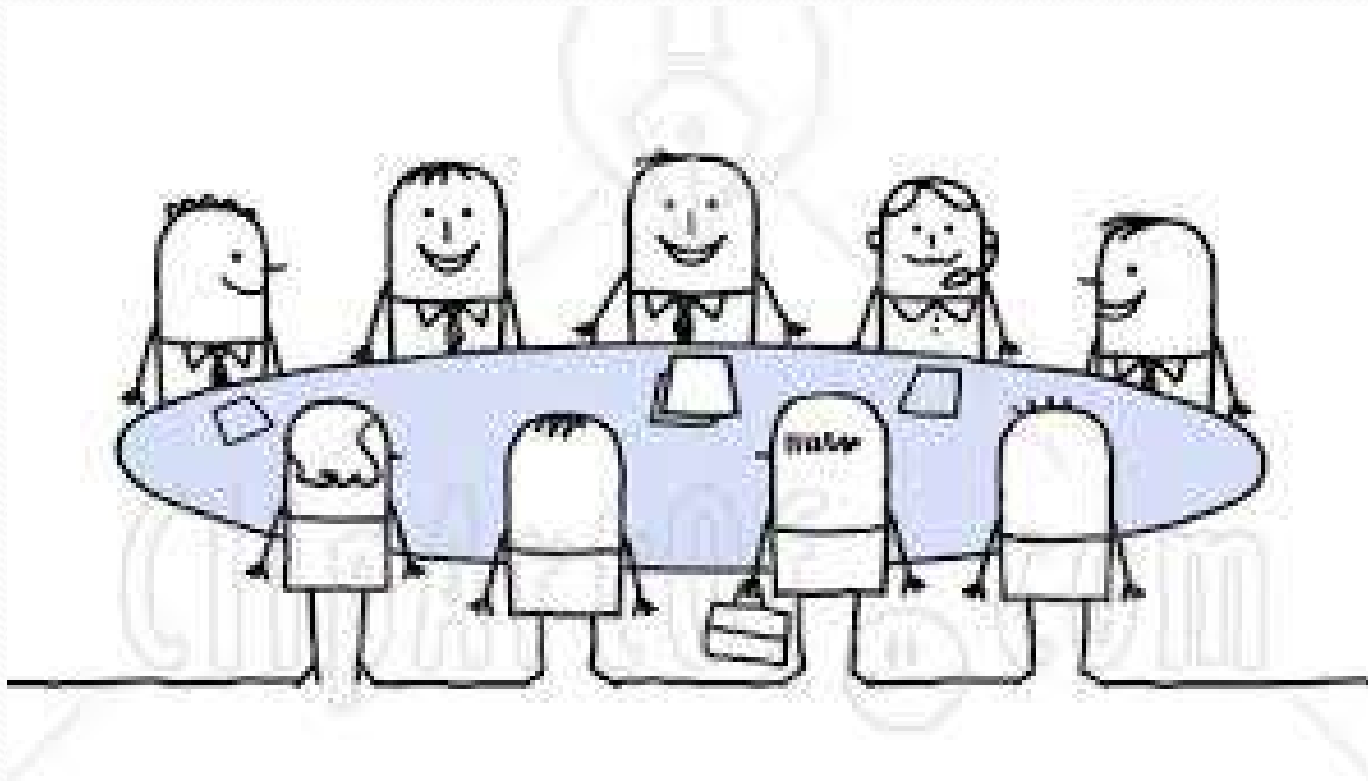

Step 5: Team examination/discussion of case and issues

Today's Agenda

12:00-12:15	Networking Lunch - Readiness Assurance Test (RAT)
12:15-12:25	Welcome and Introductions Irene Forsman, RN, MS; Maternal and Child Health Bureau Meaghan McHugh, MPH; AUCD
